

Computability & Logic, Exercises to Lectures 11+12

Aïna Linn Georges and Jaco van de Pol

Theoretical Exercises

From John C. Martin book

All exercises are useful and instructive, but make sure you will carry out at least one exercise of each category.

Pumping Lemma

- 2.22 (a, d) [at least (a), better both]

Minimisation:

- 2.55 (a, b) [at least (a)]

Closure Properties [both]

- 2.58 (Is it possible to choose some regular language for L ?)
- 2.59

Myhill Nerode: [at least 2.36]

- 2.36
- 2.35
- 2.43 (bit difficult, but instructive)

Algorithms [at least (a), (c)]

- 2.27 (a, c, e)
